

When is my animal an emergency?

When something is inside,
that shouldn't be!

e.g. toys, poison, pills

When something is detached,
that shouldn't be!

e.g. severed limbs

When something moves,
that should be fixed!

e.g. broken bones

When something comes out,
that should stay inside!

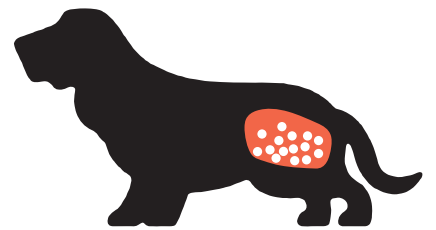

e.g. frequent vomiting

When something doesn't come
out, that should!

e.g. missing feces or urination,
birth disorders

When pink turns into blue!

e.g. shortness of breath

When something becomes visible
that was previously covered!

e.g. serious injuries

When nothing works!

e.g. paralysis, coma
